Description

To speedup this site, delete any login which:

- 1- has not voted in tracker ratings
- 2- has not submitted, modified or commented a tracker item
- 3- no tracker item is submitted to them

In short, all logins which are not useful here at the moment. Logins will be recreated here at their next login via InterTiki anyway...

Solution

In Tiki4: replace user dropdown lists with AJAX/jQuery autocomplete enabled input fields if there are more then N users.

This apparently is because the drop down menus of users list every user, pages like user admin grinds to a halt with 10,000 users.

The plan is to replace them with AJAX/jQuery autocomplete enabled input fields if there are more than N users. (Same for groups?)
