Description

Plugin mouse over is missing this files inside:

wiki-plugins/mouseover/wiki-plugins/wikiplugin_mouseover.php
lib/wiki-plugins/wikiplugin_mouseover.php

it only contains th*.info.txt file.

So it can't install (neither from cvs _mods, neither from admin mods interface (mods.tikiwiki.org)

Solution

1- fix the plugin:

Mouseover plugin : Data & param should be inverted

2- move from mods to main code base

Both done in version 3.0
