Description
Mmmm, file gallery contents cannot be viewed if anonymous and language selected is catalan.
Example:

http://gclub.ub.es/file6

Change language to english or any other, and the contents will be shown.

I'm not sure but I would say that this didn't happen before I updated to 1.9.8beta (yesterday)

-
May be related to that older bug report?:
Listing a file gal. in CATALAN returns smarty error for admins, and blank page for reg. users
