Description

Yahoo! now provides OpenID support for all Yahoo! IDs. However, I am unable to login to any Tiki by using my Yahoo! OpenID.

See http://tikiwiki.org/tiki-view_forum_thread.php?forumId=4&comments_parentId=28775

Solution

I believe this is fixed by r24299, on trunk ("update php-openid to 2.1.3 (despite 'Auth_OpenID_VERSION' being defined as '2.1.2')"). This should be fixed in Tiki 5. I don't know exactly what fixes it, which makes me hesitant to backport.

Thanks to Rick for helping to test.

I'm having the same problem. So I checked to verify my Yahoo OpenID from my claimID account. I got the error message that there's no openID server at yahoo.com. Maybe it has to do with the fact that Yahoo OpenID is in beta process.

Another idea: Yahoo only supports openID 2.0. Might this be the problem?

On trunk, I'm getting error "You are not logged in. Go to Log in Page" when I get back from Yahoo! after trying to associate or register.
