Description

Hello, I have been receiving this error ever since I upgraded to 2.0 (I have since upgraded to 2.1
and then 2.2). When I click on admin_categories, I receive this MySQL error message. I have not
found any workaround.

I did a clean install and clean database install and was unable to admin_categories there either.
MySQL version 4.0.18 local on a Suse OES 1 box. TikiWiki 2.2, started occuring in 2.0.

Please help! Thanks a lot!

Solution

Upgraded to MySQL 5.x. Problem solved!
