### Description

Hello, I have been receiving this error ever since I upgraded to 2.0 (I have since upgraded to 2.1 and then 2.2). When I try to add a new user, I receive this MySQL error message. I have not found any workaround.

I did a clean install and clean database install and was unable to duplicate this error that way. MySQL version 4.0.18 local on a Suse OES 1 box. TikiWiki 2.2, started occuring in 2.0.

Thanks for the help!

### Workaround

I took the advice of Sylvie and add the email\_confirm column to my database table. After that, it worked just great! Thanks!

Did you run the DB upgrade script?

sylvie greverend 13 Jan 09 16:29 GMT-0000

As marc said , it should work with the upgrade

Otherwise try

```
ALTER TABLE users_users ADD pass_confirm int(14) default NULL AFTER challenge;
```

```
ALTER TABLE users_users ADD email_confirm int(14) default NULL AFTER pass_confirm;  
in the database.
```
