Description

See bug 492679 on SUMO for more details:

https://bugzilla.mozilla.org/show_bug.cgi?id=492679

The problem is that files such as sr-Cyrl are not handled properly in tiki, due to a strtoupper() conversion in the way files in lang/ (language_files/) are handled.

Solution

Allow capitalization of the first letter only, and do not force the entire second part of the locale to be upper case. E.g. allow sr-Cyrl, not just sr-CYRL.
