Description

BRANCH-1-9 is not working

http://themes.tikiwiki.org/tiki-index.php?page=rssaggregator

HEAD is maybe working.

Solution

If you are combining feeds, "show publish date" must be checked in the RSS module settings, in order to allow this plugin to sort the combined feeds. Info added to comments as well as doc.tw.o. But at the same time removed strange behaviour where the first items of a combined feed are dropped.
