Description

Group plugin is very cool to put conditional content on a wiki page.

However, it is only an if. There is no if/else.

Say I want to show a content X to people in a group and content Y to everyone else.

Maybe we could have a new parameter?: notgroups

```
{GROUP(groups=>Anonymous)}text for anon{GROUP}
```

```
{GROUP(groups=>notgroups=>Anonymous)}text for the others{GROUP}
```

This works!

```
{GROUP(groups=>Registered)}blabla{ELSE}text for the others{GROUP}
```
